Donielle Baker from NaturallyKnockedUp.com recently interviewed me for her podcast and blog. In this podcast you'll learn:

1. The importance of eating right for fertility and what to eat.
2. Fertility after 40: which factors impact your ability to conceive after 40
3. Important tests to have to help prevent miscarriage
4. How to increase your chance of success with IVF
5. How to prevent a miscarriage

I also shared important updates on the upcoming Fertility Retreat at Sanoviv Medical Institute in September.
