

## **What Makes the NFP Approach Different Yet Complementary to IVF?**

**by Iva Keene MRMed. ND. - Natural Fertility Specialist - Saturday, October 17, 2020**

<https://natural-fertility-prescription.com/makes-nfp-approach-different-yet-complementary-ivf/>

Today we share what makes the NFP Program unique but helpful for individuals and couples seeking assisted reproduction help when trying to conceive.

If you're considering IVF or any assistive reproductive treatment, you can download our IVF checklist (click the button below).

We're often asked by clients why they should choose the NFP program over IVF. On the contrary, we recommend that you DON'T. There is no choice between IVF and the NFP Program because these two go well together! The NFP Program is a strong, effective IVF support tool that has helped countless couples conceive healthy babies through IVF.

Today we share what makes the NFP Program unique but helpful for individuals and couples seeking assisted reproduction help when trying to conceive.
