

[Story] Abby, 30 Pregnant Despite Subclinical Hypothyroidism & Poor Sperm

by Iva Keene MRMed. ND. - Natural Fertility Specialist - Wednesday, July 22, 2020

<https://natural-fertility-prescription.com/story-abby-30-pregnant-despite-subclinical-hypothyroidism-poor-sperm/>

Despite suffering from hypothyroidism and sub-optimal sperm parameters, Abby and her husband were able to conceive and give birth to a healthy, beautiful baby. Here's how they did it.
